

BULLETIN NO: **3** RELEASE DATE: **17th January 2020**

WHEN A NEGATIVE BECOMES A POSITIVE

“No surprises to report!” Those positive words from the asbestos survey team on Monday 13th January were in some way’s music to our ears.

A full investigative survey was always going to be step one to check if the building held any secrets other than the asbestos roofing panels. These panels can be relatively easily removed and disposed of without major hazardous handling procedures.

So, it’s encouraging that the path is now clear for the actual demolition process to commence on the 20th January without delay. Onwards and upwards or should that be downwards? Watch this space!

This panorama is about to change!
